Dear Friend,

If you have scheduled a meeting with Juanita and I, thank you. If you haven't, please do. Time is short. Darkness is pouring in like a flood in the Northern Tier. And, everywhere.

We know that you have worked long and hard. Some people have seen incredible fruitfulness. Others feel like they and their ministry are struggling.

We cannot solve the problems we are experiencing today without understanding some simple things that we COULD do. Should do. But, we are missing. These are NOT complicated. They are not difficult. They change everything.

Juanita and I have been sharing this simple plan with people coast to coast. Let me tell you what has happened in just this last 10 days..

A Christian leader of 1400 micro-communities immediately arranged for us to speak to leaders of his communities.

A business leader in Florida immediately arranged for 10 co-laborers in Florida to speak with us.

Plus, not long ago, a city-wide ministry in Dallas, TX, invited Johnny and I to start in Dallas. We declined. Why? Partly because in our hearts, we think that these new things should happen in "Jerusalem", our home area. Once things are in place in the Northern Tier, then Juanita and I can make time to go to Dallas to help set things in motion there, as well.

Years ago, someone shared that he felt that God was going to knit the business-people and the church leaders together in our region to get the Good News out. Not only to get it out in our area, but to get it out across the world. He felt that God would be releasing many dollars of funding for this effort. Juanita and I are glad to say that first fruits of this funding is flowing in.

He said he felt that God would be using people as strategic planners to get the Good News out. This is what we want to talk to you about... Simple strategies that are not being done. And, dare we say it? These strategies MUST be done if we have any hope to bring the good news to all 'nations'. The word 'nations' in Matthew is ethnos. It means 'people groups'. If we are going to bring the Good News of the Kingdom to all people groups, we need a plan. That is what we want to share... A plan.

- Simple
- A place for everyone
- Non-disruptive to the normal operation of the local church, your ministry or your marketplace ministry.

- Complete, the plan is complete. In our next letter, we want to tell you a bit about what we have come to understand about the EMERGENT nature of the Kingdom of God. From tiny seeds, everything grows. It's incredible.

When can we meet?

Sincerely in Christ,

Johnny Berguson
